

Everyday Incidents

If you see something you don't like tell an adult.

Only accept friends and gamers if you know them in person.

Always ask an adult to go on YouTube and games.

Do not click on pop ups.

Never answer messages if you don't know who sent them.

Check your security settings. You never know when things could come up that you don't think you should see.

Always check the security settings, if you don't your personal details could be copied.

Remember, never give out any personal details online
e.g. email address, phone number, home address, mobile

Friends you know

Online games, like Minecraft, might contain messages that have swear words in, if this happens then get an adult to delete it.

Keep safe online

Keeping safe online is important in life for many reasons. For example if something comes up suddenly and you don't like it you need to learn how to deal with it and you also need to learn to tell an adult you trust and know.
